

## Customer Focus: **AVIVA CANADA**

After reviewing several options, Aviva Canada has elected to locate its new national head office in Downtown Markham, which provides superior amenities and unique benefits including a connection to Markham District Energy's Markham Centre system.

In addition to a district energy connection, the location provides easy access to transit, retail offerings, restaurants, art installations and green space. Located south of Enterprise Blvd. on Birchmount Road, the 12-storey, 350,000 sq. ft. building is scheduled to open in 2017.

Aviva Canada joins other industry leaders including Worley Parsons, Motorola and Honeywell in selecting LEED certified commercial spaces offered by Downtown Markham and a district energy connection provided by Markham District Energy.

Aviva Canada is the second largest general insurer in the country employing more than 3,000 employees and providing home, automobile, recreational vehicle, group and business insurance to more than three million customers.

Markham District Energy is pleased to have this leading insurance group connected to its Markham Centre system and looks forward to working with Aviva to deliver a reliable and efficient supply of heating and cooling energy for many years to come.
